SUMMARY

B.Tech Computer Science graduate (2026) with internship experience in web scraping and data collection, and projects built using Python, FastAPI, React and Google Gemini API. Seeking an entry-level Software Developer role.

EDUCATION

B.Tech in Computer Science Engineering, DBTU University | 2022 – 2026 | First Class
12th Standard: 60% | 10th Standard: 80%

TECHNICAL SKILLS

Languages: Python, Java, C (Basic)
Web & Frameworks: HTML, React, FastAPI, Flask, REST APIs
AI / ML: Google Gemini API, Machine Learning Basics
Data & Automation: Web Scraping, Data Visualization, Google Sheets API
Database: Supabase (PostgreSQL)
Core & Tools: OOP, Data Structures, Git/GitHub, VS Code, PyCharm

INTERNSHIP

Data Automation & Software Development Intern | Apr 2026 – Jul 2026
3C Customerization Technologies Pvt. Ltd.

- Wrote Python scripts to collect (scrape) data from multiple websites.
- Helped build a platform to store, retrieve, and visualize the collected data.
- Cleaned, validated, and structured the data; used Git and followed data-security guidelines.

PROJECTS

Vision AI Analyzer | React, FastAPI, Google Gemini API
Web app where a user uploads an image and gets an AI-generated description and summary.

- Built the backend in FastAPI, which sends the image to the Google Gemini API and returns the result.
- Built the frontend in React for uploading the image and showing the summary.

Eccho-Tracker | React, FastAPI, Supabase
Web app that tracks mentions and shows them on a dashboard.

- Built the backend APIs in FastAPI and stored the data in a Supabase database.
- Built the dashboard in React to show the tracked mentions and trends.

LANGUAGES

English, Hindi, Marathi
